MECHANICAL DISPENSER FOR PAPER TOWEL ROLLS

MERIDA UNIQUE LUX CUT

Device available in two versions:

- MERIDA UNIQUE SPARK high gloss - symbol CUS351
- MERIDA UNIQUE matt - symbol CUS301

The exclusive look and unique patented "straight cut" system make the dispenser exceptional. Innovative cutting mechanisms with four opposing knives ensure that each cut-off towel has four straight edges. Thanks to its compact construction, the dispenser remains small while holding a 250 meter long towel roll. When cut every 25 cm, one roll produces 1000 towel sheets!! The device is made of high quality ABS plastic, with transparent sides and back to provide easy control of refill levels at all times.

MECHANICAL DISPENSER FOR PAPER TOWEL ROLLS

MERIDA UNIQUE SOLID CUT

Device available in two versions:

- MERIDA UNIQUE SPARK high gloss - symbol CUS352
- MERIDA UNIQUE matt - symbol CUS302

Despite its small size the paper towel roll dispenser holds a large 250 meter long towel roll. When cut every 24 cm more than 1000 towel sheets are produced from a single roll! Simply insert the roll and forget about refilling for a long time. The reliable and effective cutting mechanism is extremely simple in its construction ensuring smooth and gentle functioning. The cutting knife is made of very hard plastic which is resistant to blunting and deformation. Our tests have proven that even after 2 million cuts the knife lost none of its properties. The dispenser is made of high quality ABS plastic. The back and sides of the device are made of transparent plastic providing easy control of the refill levels all the times.

MERIDA UNIQUE SPARK high gloss - symbol BUS251

MERIDA UNIQUE matt - symbol BUS201

TOILET TISSUE DISPENSER

Device available in two versions:

- MERIDA UNIQUE SPARK high gloss - symbol BUS251
- MERIDA UNIQUE matt - symbol BUS201

Made of high quality ABS plastic

- maximum roll diameter - 19 cm
- lockable (locked with a key)
